Revival of the Central Investment Subsidy Scheme

1517. SHRI M. VINCENT:
SHRI AJIT P. K. JOGI:

Will the Minister of INDUSTRY be pleased to state :

(a) what are the 'revolutionary changes' in the industrial policy that were introduced during the last financial year;

(b) whether Government are aware of the difficulties and bottlenecks of new industry started during last year on account of the withdrawal of the Central Investment Subsidy Scheme; and

(c) if so, whether Government propose to revive the Central Investment subsidy Scheme?

THE MINISTRY OF STATE IN THE DEPARTMENT OF INDUSTRIAL DEVELOPMENT IN THE MINISTRY OF INDUSTRY (SHRI M. ARUNACHALAM) : (a) A statement showing the major changes made in the industrial policy during the last financial year is given below.

(b) and (c) The Central Investment Subsidy Scheme was extended up to 30-9-1988.

Statement

The major changes in licensing policy during the financial year 1988-89

1. Delicensing upto Rs. 50 crores

Non-MRTP/Non-FERA companies are exempt from the licensing provisions of the Industries (Development & Regulation) Act for taking up projects involving an investment even upto Rs. 55 crores if the projects are located in backward areas subject to certain distance criteria. The exemption limit is Rs. 15 crores if the projects are located in non-backward areas. Further more, the 'negative list' of industries which required compulsory licensing regardless of investment size has been reduced from over 77 item to 26 items. Exemption is further subject to the condition that the foreign exchange for imported raw materials and components should not be more than 30% of the value of ex-factory production from the first year of commercial production.

2. *Locational Policy*

As per the locational policy of the Government laid down *vide* this Ministry's notification of 30th June, 1988, industries have to keep away from the cities/towns having a population of 7.5 lakhs and above and outside the standard urban area/municipal limits of other cities and towns. Any relaxation of the locational policy will be considered on merits by the different Committees.

3. *Maximum utilisation of plant and equipment*

Industrial units are automatically entitled to endorsement of capacity in their licence or registration of the maximum production actually achieved by them in any financial year between 1st April, 1988 and 31st March, 1990.

4. *Exemption from licensing*

Companies registered under section 20 (b) only of MRTP Act *i.e.* dominant undertakings having total assets upto Rs. 100 crores only have been treated on par with non-MRTP/non-FERA companies in respect of products other than those in which they are classified as dominant.

5. *Validity period of Letter of Intent*

Previously letters of intent were given under the IDR Act with a validity period of only one year. Industrial units had to seek extension of the validity of the letters of intent from time to time. It has been decided that the initial period of a letter of intent would now be three years. Further extension upto five years can be given by the Administrative Ministries themselves.

6. *Definition of ancillary industrial undertaking liberalised*

Definition of ancillary industrial undertaking has been changed from a minimum limit of 50 per cent to 30 per cent of its production or services to one or more other industrial undertaking.
